MANUFACTURERS

You can phone over 150 of our suppliers direct for specialist advice and information. Look out for the supplier helpline symbol throughout the catalogue.

How to shop

Shopping is simple:

1 Write the catalogue number and the quantity of the goods you require on a customer selection form (there are some included on page 671 of this catalogue as well as in-store).

2 Take the form to a service point.

3 Whilst you are paying, your goods will be brought to the collection counter ready for you to collect. Some of our larger items can also be ordered by telephone and delivered to your door. Please see page 678 for details.

Tax Free Shopping

Overseas visitors may qualify for Tax Free shopping, saving on the cost of their purchase. Customers from countries within the European Community cannot reclaim VAT. Please ask in-store for details.

WAYS TO PAY

Debit Cards

You can pay for your purchase with either of the debit cards shown.

Cash, Cheque or Credit Card

You can pay for your purchase with cash, or Creditcharge, Visa, Access, Mastercard, Style or American Express. You can also pay by cheque and if you have a valid cheque card, we will give you immediate clearance on cheques up to £500 (subject to status, you may also need additional identification).

Up to £1,000 Instant Credit*

You can take out up to £1,000 Instant Credit with our ARGOS PERSONAL ACCOUNT.

Afford what you want now and spread your payments over time. Please ask in-store for details. (APR 27.8%† when payment is made by Direct Debit.)

*Subject to status. Available to most adults.
†Subject to variation.
A written quotation is available on request.

Premier Points

You can also pay by redeeming your Premier Points. See page 679.

Argos Gift Vouchers

Ideal for a gift or special occasion.
See page 679.
(Gift Grams page 670)

We also accept Provident and Choice Shopping Vouchers.

PLEASE NOTE:
- Some of the goods which are shown in the catalogue may vary slightly if a supplier has changed or altered their specifications after the catalogue has been printed. If this should happen, we will try to help by offering you alternative goods of a similar specification and value to your original choice.
- All sizes are approximate.
- Please check the in-store catalogues and supplements before ordering for up-to-date product information and price cuts on selected items which are often available during the course of the year.
- Under exceptional circumstances, we may have to make adjustments to our prices stated in the catalogue (which include VAT at 17½%).
- All items are subject to availability.

EXTENDED GUARANTEES

We make sure we're offering the very best quality products. But even these may occasionally break down. Take out an Argos Extended Guarantee and there'll be no need to worry about repair bills for the next 3 or 5 years.

- Competitive premiums
- Option to continue the Guarantee at the end of 3 or 5 years
- Nationwide network of authorised repair agents.

Applying for your Extended Guarantee

You can take out an Argos Extended Guarantee when you buy a product, or at any time within the first 30 days after you buy it. There are two ways: in-store or by phone.

In store:

1. Check that the product you're buying is in the table to the right.
2. Decide whether you want the Extended Guarantee for 3 years or 5 years.
3. Write the Catalogue Number for the Guarantee you've chosen on your Selection Form.
4. Take your Form to a Service Point.

By phone: Call the credit card line at Cornhill Insurance on 01892 516 819, 8am–8pm Mon-Fri, and 9am–12.30pm Sat.

More Information

For all queries, call the Helpline at Cornhill Insurance, who run the Guarantee scheme for us, on 01892 515 414 8am–8pm Mon-Fri, and 9am–12.30pm Sat. Their customer advisers will be happy to help.

FREE Accidental Damage Cover

For the first 12 months after you buy a product in the list on the right, our FREE Accidental Damage Cover will pay for any repairs you need if the product is damaged accidentally.

- If you're taking out an Extended Guarantee we'll automatically include FREE Accidental Damage Cover.
- If you just want FREE Accidental Damage Cover, pick up a leaflet in a store for details, or call 01892 516 819, 8am–8pm Mon-Fri, and 9am–12.30pm Sat. *Not available for businesses.*

How it works

In Year 1 you are covered by the manufacturer's guarantee, AND we'll give you FREE Accidental Damage Cover.

3 Year Extended Guarantee extends your cover by an extra 2 years.

Year 1 Year 2 Year 3

5 Year Extended Guarantee extends your cover by an extra 4 years.

Year 1 Year 2 Year 3 Year 4 Year 5

Our Guarantees are arranged by Cornhill Insurance, who also run the helpline. The Guarantees do not affect your statutory rights. The premiums shown above include any insurance tax applicable.

If you'd like a copy of the full terms and conditions, just ask in any Argos store. The Guarantee covers parts, labour costs, and call-out charges if the problem is due to faulty workmanship or materials used in manufacture.

Available for up to eight business products for business use for one individual at one address.

16 DAY MONEY BACK GUARANTEE

If you change your mind and decide that a product you have bought does not meet your exact requirements, we offer you the opportunity of returning it within 16 days of purchase, for a full refund or exchange. We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note this promise does not apply to earrings for pierced ears, food products, camcorders, pre-recorded music or videos, computer software or fresh flowers. This guarantee does not affect your statutory rights.

Your Guide to

Gardening

GARDENING SAFETY TIPS

Together with BOSCH we have identified some key safety tips you should follow in the garden.

- ▲ Always follow the manufacturer's instructions very carefully.
- ▲ Always fit a residual current device (RCD) to the electric socket for added protection. This disconnects the electric circuit if there is a fault (order Cat. No. 982/1321).
- ▲ Never use an electric mower in damp conditions and do not attempt to lift the mower whilst the blade is rotating.
- ▲ Always wear safety goggles, stout shoes and hand protection where necessary - particularly on rough ground. A safety kit is available via mail order (for credit card orders please call 0161 976 4505 or pick up an order form from your local store).

The choice of lawnmowers is becoming more complex as manufacturers develop and refine existing technology. We have outlined below some key factors which you should consider before you purchase your equipment.

Power Choice

Petrol

The key benefit of a petrol-powered mower is the freedom it gives you - you are not constrained by proximity to power points. A petrol engine generally provides greater power than an electric motor and will be more suitable for large gardens.

Electric

Electric mowers are lighter to use, and start at lower prices. Power output is measured in watts and as with petrol engines, the larger the motor, the greater the power output.

Choice of Cut

There are two basic methods by which mowers cut - Rotary and Cylinder. Rotary blade mowers come in two types - wheeled and hover.

Rotary Cut

Wheeled rotary blade machines are available in a range of sizes suitable for most gardens. Most collect the grass and can cut close to the edge of the lawn. Some have rollers to stripe the lawn as it is being cut.

All our hover mowers are electric, easy and flexible to use. They operate by literally hovering just above the ground as they cut. There are two types of hover mower, ones which simply cut the grass and ones which cut the grass and collect it.

Cylinder Cut

This is the traditional English way of striping your lawn. Variable height blades positioned at the front of the mower give a clean, neat finish. All our cylinder mowers collect the grass.

Garden Tools

Grass Trimmers/Edgers

These cut grass around the areas inaccessible with a lawnmower, i.e. close to walls, around trees etc. They work by having a length of nylon line spinning at speed, which cuts the grass.

Hedge Trimmers

These are purpose built to keep your hedge looking perfect; they work by way of "scissor" action with the blades moving rapidly back and forth.

Garden Shredders

These products reduce your garden waste - leaves, hedge cuttings, small branches etc, into a smaller size, enabling good compost to be produced much more quickly.

FURTHER INFORMATION

All Flymo petrol mowers are designed to run on leaded or unleaded petrol.

Please note: All electric powered Flymo lawnmowers sold by Argos have 3-year parts and 1-year labour guarantees. Flymo accessories are available via Argos Mail Order Services (see page 636).

All electrical items on these pages that are supplied with a cable are fitted with a plug.

We offer an after sales Repair Service, please see page 673 for details.

CORDLESS POWER TOOLS SAFETY TIPS
In conjunction with RoSPA* (the Royal Society for the Prevention of Accidents), we have put together the following safety advice.

▲ Always read and follow the manufacturer's instructions before starting work. If you lend equipment, make sure that the user reads the instructions for reference.

▲ Wear safety goggles for DIY activities. A safety kit is available via mail order (for credit card orders please ring 0161 976 4505).

Buying the right tools for the job can be the key to successful DIY.

As cordless drills and screwdrivers have rechargeable batteries and no extension leads, they can operate at any distance from a mains supply.

Cordless drills can still be used to drill holes in wood, metal, plastic and masonry if they have a hammer action facility. Those featured with variable speed and reverse can also act as a screwdriver.

Features

Voltage

The power (battery size) of a cordless drill is measured in "volts". The higher the voltage the more powerful the drill, for example, 9.6 volts is 33% more powerful than 7.2 volts.

CHARGE TIME

Trickle Charge

The screwdriver is left constantly "topping up" its charge while not in use.

Fast Charge

This can be anywhere between 1 and 4 hours dependant upon specification. The faster the charge time the quicker you can get back to work.

Spindle Lock

Allows your powered screwdriver to be used as a conventional screwdriver when tackling exceptionally tough screws.

Keyless Chuck

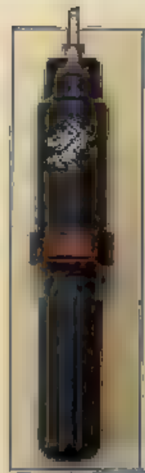
Allows you to change accessories quickly without the need for a chuck key.

Hammer Action

Essential for drilling into masonry and concrete. The drill bit is "hammered" into the material thousands of times a minute, the rotation of the drill bit simply clears the debris from the hole.

Removable Battery

A rechargeable, removable battery allows greater flexibility and continuous use, as a second battery can be charged whilst the drill is in use.



[illegible] CORDLESS SCREWDRIVER

Your Guide to

Power Tools

To help you choose the right tools for DIY jobs at home we have explained some of the more common features.

HELPLINES
Should you have any queries regarding your drill call the appropriate telephone number during normal office hours.

Black & Decker	01753 574277
Bosch	01895 [illegible]
Skil	01322 [illegible]

POWER TOOLS SAFETY TIPS
In conjunction with RoSPA (the Royal Society for the Prevention of Accidents) we have put together the following safety advice.

▲ Always read and follow the manufacturer's instructions before starting work. If you lend equipment, make sure that the user reads the instructions for reference.

▲ Always fit a residual current device (RCD) to the electric socket and test it before using a power tool. This disconnects the electric circuit if there is a fault - order Cat. No. [illegible].

▲ Wear safety goggles for DIY activities. A safety kit is available via mail order (for credit card orders please call 0161 974 [illegible]).

▲ Unplug the drill before fitting bits and use good quality sharp bits in the drill, making sure they are secured firmly in the chuck.

▲ Don't leave cables trailing over the edge of the work surface. When the job is finished, put the drill away.

All electrical items are supplied complete with a fitted plug.

Features

Power
The power of the motor in a drill is measured in "watts". For occasional and light usage a lower watts rating will suffice, for heavier duty, and more frequent use, a drill with a higher watts rating is important.

Speed
Varying materials and hole sizes require different speeds and power. Some drills come with a speed selection guide printed onto its casing.

Single Speed
For straight forward drilling into wood, metal and plastic, a single speed drill may be suitable.

Two-Speed
Drills with two speeds allow greater flexibility in drilling through hard or soft materials. A two-speed drill will also allow you to select either fast or slow speed measured in RPM (revolutions per minute). The higher the RPM, the faster the rotation of the drill. When drilling into hard materials like masonry, you need to use higher speeds with hammer action.

Variable Speed
For more control and precision a variable speed drill may be suitable. It will allow you to tackle a variety of tasks in different materials and thicknesses with greater accuracy than two-speed drills.

Always read the manufacturer's instructions before using variable or two-speed drills.

Hammer Action
Essential for drilling into masonry and concrete. The drill bit is "hammered" into the material thousands of times a minute, the rotation of the drill bit simply clears the debris from the hole.

Reversing Facility
The drill bit can be made to rotate in an anti-clockwise direction, this is handy for removing a sticking drill bit and is essential for screwdriving.

Chuck Size
This refers to the diameter of drill bit shank which can be put into the drill. This is not necessarily the size of the largest hole you can drill.

Keyless Chuck
Allows you to change accessories quickly without the need for a chuck key.

Torque Control
You can select the torque or "power" to be used whilst screwdriving. This means that not only can screws be driven home to precisely the correct depth time and time again, but the correct torque setting also prevents damage to the screw head.

7 **HILKA 19 PIECE DRILL BIT SET** High speed steel [illegible] with metric sizes from 1.5 mm to 10 mm. Supplied in a metal cantilever [illegible] case.
Cat. No. 701/0543 £7.49

8 **[illegible] DRILL AND SCREWDRIVER BIT SET** Contains 4 HSS [illegible] 6 mm, 8 masonry 3 mm-10 mm, 8 wood bits 3 mm-10 mm, 3 flat bits [illegible], 6 screwdriver bits (cross head and flat head). With magnetic bit holder in moulded storage base.
Cat. No. 701/1195 £13.99

9 **BOSCH [illegible] PIECE DRILL AND SCREWDRIVER BIT SET** Contains 15 HSS [illegible] 8 mm, 4 masonry drill bits sizes 5-8 mm, 4 flat wood bits [illegible] mm, 3 hexagonal sockets [illegible] 12 mm, 5 double ended screwdriver bits [illegible], 1 countersink [illegible] [illegible] [illegible] in [illegible] carrying case [illegible].
Cat. No. 701/1690 £19.99

10 BLACK & DECKER BD538 JIGSAW 350 watt. Single speed 3,200 strokes per minute. Maximum cutting capacities: wood 50 mm, steel 3 mm, plastic 3 mm. With protective blade guard, mitre cutting facility up to 45° and dust extraction facility.
Cat. No. 710/4277 £26.89

11 BOSCH PST 54E JIGSAW 350 watt. Variable speed, from 500 to 3,200 strokes per minute. Maximum cutting capacities: wood 54 mm, steel 3 mm. Mitre cutting facility. Parallel guide support. Complete with wood blade.
Cat. No. 710/6048 £44.89

12 BLACK & DECKER BD538E SCROLLER Jigsaw 350 watt. Variable speed, from 500 to 3,200 strokes per minute. Faster speeds for cutting wood, slower speeds for cutting metal and ceramics. Selected speed is maintained by electronic feedback. Scrolling action allows cutting of intricate shapes in thicknesses of up to 55 mm in wood, 3 mm in steel, 35 mm in plastic. Complete with blade guard, mitre cutting facility up to 45° and dust extraction facility.
Cat. No. 710/4284 £56.89

13 BOSCH PST 700 PAE ORBITAL ACTION JIGSAW 500 watt. Variable speed, from 500 to 3,000 rpm. Maximum cutting capacities: wood 70 mm, steel 8 mm. New "clic system" blade fixing. Four stage orbital action. Mitre cutting facility up to 45°. Complete with parallel guide support, dust extraction facility, wood blade and anti-splinter device.
Cat. No. 710/8259 £88.39

14 BOSCH PDA 100 DELTA SANDER 90 watt. 96 mm disc size. No load speed 6,000 rpm. Dust extraction facility. [illegible] disk for sanding inaccessible areas such as corners, frames and window frames. Complete with 3 assorted velcro fixed sanding discs.
Cat. No. 710/8211 £48.89

15 BLACK & DECKER [illegible] ⅓ SHEET ORBITAL SANDER 135 watt. Variable speed from 6,000 to 22,000 orbits per minute. Faster speeds for quicker material removal. Complete with vacuum dust extraction facility and easy paper change mechanism. Ideal for smoothing and finishing.
Cat. No. 710/8314 £41.50

16 BLACK & DECKER BD175 ⅓ SHEET ORBITAL SANDER 135 watt. Single speed 20,000 orbits per minute. With vacuum dust extraction facility and easy paper change mechanism. Ideal for smoothing and finishing.
Cat. No. 710/7308 £27.15

17 BOSCH PSS 23 ⅓ SHEET ORBITAL SANDER 150 watt. 26,000 orbits per minute. No-load speed 13,000 rpm. Dust extraction facility. Ideal finishing sander. Complete with sanding sheet.
Cat. No. 710/7315 £36.00

18 BOSCH PEX 115A-E MULTI-SANDER 190 watt. 115 mm disc size. Uses quick change velcro type discs. No load speed 11,000 rpm. 22,000 orbits per minute. Built-in dust extraction with removable dust bag. Ideal for sanding curved surfaces. Complete with 1 sanding disc and dust bag.
Cat. No. 710/8228 £49.50

19 BLACK & DECKER BD190E RANDOM ORBIT SANDER 150 watt. Variable speed from 5,500 to 12,000 orbits per minute, faster speeds for quicker material removal. [illegible] for a smooth, controlled start up. Complete with dust extraction bag, fully adjustable side handle and is easy to change velcro backed discs. Ideal for both removing large amounts of material and finishing even on contoured surfaces.
Cat. No. 710/7683 £51.89

BICYCLES
Please note, pedals have to be fitted and handlebars and saddles adjusted. Please refer to manufacturer's in-pack leaflet for step-by-step instructions.

ACCESSORIES
For cycling accessories, please refer to pages 48-49.

* BE SAFE * BE SEEN * WEAR A HELMET

SIZING GUIDE Check your inside leg measurement (without shoes) to find the correct frame size to suit your needs. For off the road use, choose a cycle with a smaller frame size in the range shown. For road use, a larger frame will suit. Eg inside leg = 30 ins, off road 18 ins frame, on road 20 ins frame.

Should you have any queries regarding your cycle please call the appropriate telephone number during normal office hours, unless otherwise stated.
FALCON 01652 656000.

Your Guide to

Keep Fit

Stay in Shape at Argos

Our range of in-home exercise equipment will enable you to exercise where and when it suits you. We have equipment to develop strength and stamina to suit everyone, whatever their age, sex or level of ability. Whether you are looking for light exercise or for something more "serious", at Argos, we know how to take care of it.

Before you start, we recommend two key safety tips:

- ▲ Always consult your doctor before starting a new exercise programme which will involve a major increase in exercise compared to what you are used to.
- ▲ Never let children near any equipment whilst in use as serious injuries can be caused by moving chains, wheels, spokes etc.

Strength Training

Weights and Benches are the simplest way to increase your strength. With weights you can use either a barbell or dumbell bar depending on the type of exercise you want to do. If you use a bench in conjunction with a set of weights it will allow you to further develop your own training programme.

Multigyms are the most comprehensive fitness and body building machines for developing your muscles. They are fully adjustable so that you can progressively increase and decrease the weights and resistance on them.

We've included a dimensions box next to each multigym, but do allow for the extra space needed when the equipment is in use.

Stamina Building

Exercise Bikes help you build up your aerobic capacity and are particularly good at helping to tone up the muscles in your buttocks, hips, thighs and legs.

Dual action cycles have adjustable pivoting handlebars enabling you to pedal and row, exercising the upper and lower body at the same time.

Rowing Machines are the single best machines for all round exercise by strengthening your legs and exercising your upper body.

Steppers provide one of the best forms of cardiovascular workout, using the largest body muscle groups and strengthening, toning and contracting muscles. Steppers are available in various formats from basic floor steppers to stepper climbers with electronic monitoring, and our range now includes the latest designs with "independent" action.

Treadmills are similar to jogging and walking and are renowned as one of the most intensive workout machines. Treadmills are available in both electric and manual versions.

Ski Machines simulate cross-country skiing which is recognised as the best total body workout, both anabolic and aerobic, exercising both the upper and lower body, whilst improving your stamina.

Now we've given you some key tips on keep fit equipment, have a look through the catalogue to see our full range and let Argos take care of it.

Your Guide to

Beds

At Argos we offer a comprehensive range of beds and mattresses which provide a high standard of quality and comfort at affordable prices. When choosing your bed the combination of mattress and base play an important part.

Features Guide

The Spring Mattress

Rows of open coil tempered springs are linked together with helical wires to spread your weight evenly across the mattress.

The gauge of the spring unit varies from 12½ (extra firm) to 13½ (medium firm).

The Base

The firmness and support of the mattress is further complemented by the type of base.

Platform Top
Unsprung base which offers both firmness and support to the mattress.

Sprung Edge
Torsion sprung base which provides both extra comfort and support.

Care of your New Bed

After delivery, keep the bed uncovered for a few hours to allow the mattress to air thoroughly. Do not roll or bend the mattress. Turn the mattress frequently from end-to-end and side-to-side.

Every bed complies with the British Standard BS7177 for resistance to ignition of mattresses, divans and bed bases.

Airsprung Manufactured under a quality assurance system accredited to BS5750. Made with individually tempered springs and spring units. These units are covered with a unique bonded natural coir fibre insulation pad called "Fitex" which virtually eliminates spring feel: softer upholstery layers are then added to increase overall comfort. A deep quilted finish maintains a constant high level of comfort to the total sleeping area.

Layezee Beds BS5750 APPROVED MANUFACTURER. Manufactured under a quality assurance system accredited to BS5750, the deep quilted mattress features a traditional spring unit, upholstered with layers of natural fillings and covered with a durable, printed fabric. Layezee Beds combine comfort with the correct level of support to ensure a good night's sleep.

Dorlux Manufacturered under a quality assurance system accredited to BS5750. Made with a premium quality spring unit, each is upholstered in layers of natural and man-made fibre fillings, ensuring the correct level of support and exceptional comfort.

The "Classic" range features luxurious micro quilted upholstery combined with a unique head-to-toe spring unit. Springs are joined by helical wires transferring weight up and down, not across, resulting in **no roll together**. Steel rod edging on perimeter of spring unit reinforces the edge support and prevents roll off.

Features 13.5 gauge spring unit, deep quilted mattress with a stitched border. The deep base has a platform option for those who prefer a firmer feel.

We offer an after sales repair service. Please refer to page 673 for details.

All electrical items are supplied complete with a fitted plug.

If you are building up your business, from an office or your home, you will be looking for the latest office equipment. At Argos we now sell a wide range of the most up to date business equipment, and all at affordable prices. To help you with your choice we have explained some of the features relating to our range of Typewriters and Word Processors.

Typewriter Features

Correction Memory enables you to correct up to two lines of current text, so if an error is made you can simply relocate and delete it. A **Text Memory** facility allows you to store information/text of varying amounts. This can range from 5 pages of text with a 6k memory to 6 pages of text with a 12k memory capacity. A **Liquid Crystal Display** (LCD) allows you to review and edit text easily on screen before printing. A **Justification** facility blocks text neatly against the margin in equal proportion regardless of the number of words, giving a professional appearance. With a **Spellcheck** facility spelling mistakes can be checked, enabling documents to be free from spelling errors. A **Decimal Tabulation** facility automatically positions the carriage for alignment of numbers at the decimal point. The **Print Speed** of a typewriter is measured in CPS (characters per second) and the **Typing Pitch** designation represents the number of characters that can be typed per inch.

Word Processors

Word Processors offer all the benefits of an advanced typewriter but with the additional features of larger displays and a bigger memory capacity. The memory of all our Word Processors can also be expanded by the use of an external 3½ inch floppy disk.

Features

Using the **Block/Copy/Move and Delete** features, blocks of text can be copied, moved or deleted to allow simple and quick editing. A **Search and Replace** facility enables editing of a specific word or phrase throughout a piece of text in one single operation. Using **Address/Mail Merge**, a list of names and addresses can be merged with a letter, this enables you to provide personalised correspondence easily. A **Spellcheck** facility helps to screen out spelling mistakes. **MS DOS File Format Compatibility** allows storage of information in DOS format to enable data exchange with PC's.

Printing Formats

There are 3 printing formats available on our range of word processors. **Daisy Wheel** produces letter quality print at a speed of 13-15 characters per second. The type style can be changed by fitting an alternative daisy wheel. **Thermal Transfer** prints onto normal paper and is quieter and more flexible enabling a variety of fonts, styles and sizes to be produced. Draft and letter quality printing is possible at a faster speed than daisy wheel printing. **Bubble/Ink Jet** printing uses a non-impact method which forces ink onto the paper creating near laser quality print. It is quiet and fast and offers the flexibility of various fonts, styles, sizes and shades.

Argos Mail Order Service

To cater for all your needs we also offer a mail order service for ribbons, daisy wheels and software accessories on typewriters and word processors. Simply call 0161 976 4505 (24 hours) for credit card holders, or alternatively pick up an order form from your Argos store. No stamp is required.

Extended Guarantees

For added peace of mind why not take out an Argos 3 or 5 year Extended Guarantee. See page 3.

ACCESSORIES. Please note, Argos sell a range of floppy discs which are compatible with all our computers and word processors. Refer to page 185 for details.

Your Guide to

Computers

The Argos range of PCs has been chosen to offer a choice of configurations, and all come pre-loaded with a suite of software to enable you to get started right away.

FEATURES

Processing Speed is determined by both the processor type and the clock speed. The clock speed is measured in megahertz (MHz), in general the higher the MHz, the faster the processing.

Computer Memory Size is judged by how many bytes of data it can hold, normally measured in megabytes (1MB=1 million bytes).

Random Access Memory (RAM) is the working memory utilised whilst in operation. Information held in the RAM is lost when the computer is switched off, therefore this needs to be stored on hard or floppy disks.

The **Hard Disk Drive** is a permanent high capacity storage device which is located in the system unit. The pre-loaded operating systems and application software are stored on the hard disk drive. Other frequently used software can also be stored permanently for ease of retrieval.

CD-ROM Drive (Compact Disc Read Only Memory) is a device for reading information stored on compact disc. This allows CD based advanced software to be used, including sound and video effects superior to normal diskette based software.

Floppy Disks. These diskettes enable you to introduce new programs to the PC and also to store information externally from the computer. The PCs available from Argos are all fitted with 3.5" floppy disk drives.

Multi-Media uses the PC to mix still and motion video, sound, text and graphics to present information, eg an encyclopaedia, in an interactive form. These facilities are especially applicable to compact disc based software.

PCI Triple Bus. The Opus range of PCs now includes Triple Bus motherboards. These allow the use of the latest type of expansion cards (PCI) as well as VESA and ISA.

FREE Delivery & Installation*

- Available on computers (and computer/printer packages).
- Delivery normally within 7 days of order.
- 12 months on-site warranty.
- All packaging taken away (if required).
- Pre-loaded software.

Your Guide to

Printers

The most common printer used with word processors and PC's are the dot matrix, ink or bubble jet printers.

The Dot Matrix printer creates an image on the paper using a row of 9 or 24 pins. The pins rapidly strike a ribbon onto the paper. A 24 pin printer is able to create a much smoother outline for letters and graphics than the 9 pin printer.

Ink/Bubble Jet Printers force ink very accurately through a fine aperture onto the paper giving clear, crisp print quality. A key benefit is that it prints more quietly.

DPI (Dots Per Inch) refers to the density of the print per inch, the higher the DPI, the higher the definition and print quality.

Print Speed is measured in characters per second or pages per minute. A higher print speed allows quicker document output. A printer may have different print speeds dependent on the choice of print quality, hence letter quality will be slower than draft quality print.

Common Terminology. Draft: Low density, fast printing to check accuracy and initial layout of document. NLQ: Near letter quality. LQ: Letter quality.

Buffer Memory enables the printer to store information being transmitted from the PC ready for printing.

Fonts are different typestyles to enable various presentations of your work.

We operate a mail order service for printer accessories. For credit card orders, please call 0161 976 4505 (24 hour service) or alternatively pick up an order form from your local Argos showroom. No stamp required.

Your Guide to

Fax Machines

A fax machine needs to be plugged into a new style phone socket and the mains. Some fax machines have an internal fax switch and can direct the incoming call to either the fax or telephone as appropriate, others also allow connection to an answering machine. However, if you have extension phones you may require an external fax switch. This enables the use of the fax with an answering machine and extension phone all on one line (see item no. 1). To help you with your choice, we have identified some key features.

Features Guide

More **grey scales** offer more levels of shading and detail in image output.

Superfine/Fine Mode allows for a better reproduction of detailed documents/drawings with the facility for fine print.

Auto Document Feed lets you set up a number of pages for automatic transmission or copying in sequence.

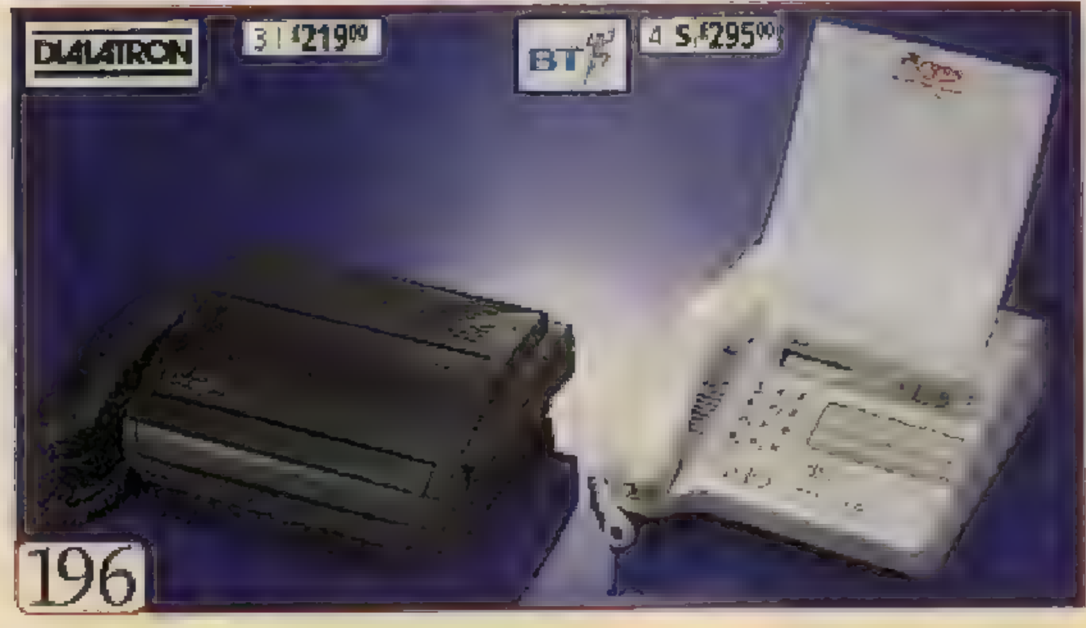
An **Activity Report** provides a summary of information transmitted and received.

An **Automatic Paper Cutter** automatically cuts paper to the length of the message received.

Anti-Curl System - a special paper feed mechanism reduces curling making your fax document easier to handle and store.

A **TAM Interface** enables connection to a telephone answering machine so that messages can be automatically directed to the fax or the answering machine.

REN - The maximum Ring Equivalent Number for a phone line is 4. Your equipment may not function correctly if this is exceeded.



1 FAX FRIEND AUTOMATIC FAX SWITCH. Allows your fax to share the same line as all of your extension telephones, bells, cordless and answering machine. Saves installation and rental costs of an additional line. Voice priority and silent operation. Ensures that you never lose a fax or voice call. Fully compatible with all telephones, faxes and answering machines. Simply plugs into existing telephone socket.

Cat. No. 671/0985 £59.00

GRAPHIC SCIENTIFIC CALCULATORS

FOR YOUR INFORMATION

SCIENTIFIC CALCULATORS
All scientific calculators have an LCD display. Mathematical functions include percentage, square root and memory. Algebraic logic is used for computation.

GRAPHIC FACILITY
This provides for data to be presented graphically through the medium of multi dot matrix, high resolution LCD displays. Item nos 13-17 feature displays that give instant graphic representation of built-in functions and user generated formulae, plus statistical graphs.

Item no 16 includes quadratic simultaneous equation facility.

Item no 17 includes dual graph/split screen dynamic graph facilities.

Batteries where required, are included with all calculators, data banks and organisers unless otherwise stated.

We operate a mail order service for a range of software [illegible] for the Sharp IQ product and the Psion Series 3 and 3A pocket computer/organiser. For credit card orders, please ring 0161 976 4505 (24 hour service) or alternatively pick up an order form from your local Argos showroom. No stamp is required.

We offer an after sales repair service. Please refer to page 673 for details.

Should you have any queries regarding your purchase please call the [illegible] number, during normal office hours.

Cat. No. 680/3751 £47.50

FOR YOUR INFORMATION

In addition to being full function calculators, data banks will store useful information such as names and telephone/fax numbers etc. Each data bank has a "secret" function enabling storage of credit card/PIN numbers, for instance.

Batteries, where required, are included with all calculators, data banks and organisers unless otherwise stated.

We offer an after sales repair [illegible]. Please refer to page 673 for details.

Your Guide to

Telephones

All Argos telephones are compatible with the national code change scheme due on April 16th 1995.

MERCURY

You can now use the "Mercury" network from your home via a British Telecom line. For a small annual fee you will receive your own PIN code giving you access to cheaper calls on some charge bands. A "Mercury" button on the telephone will allow one-touch dialling into the Mercury system. Other "Mercury compatible" telephones enable programming of the sequence into a normal memory.

Please phone the Mercury Helpline Free on 0500 500 194 for further details.

EXTENDED GUARANTEES

3 and 5 year Extended Guarantees available, refer to page 3

	3 Year Cover	
Telephone	885/0207	£14.50
Telephone & Answering Machine	885/0221	£19.99
	5 Year Cover	
Telephone	885/0703	£23.50
Telephone & Answering Machine	885/0726	£37.99

Should you have any queries, please call the appropriate telephone number during normal office hours.

Betacom/Answercall	0181 344 8000
Audioline/South Western Bell	01537 585522
Goodmans	01705 325266

Morphy Richards	0181 758 0338
Panasonic	01344 853943
Payphone Rathdown/Solitaire	01344 26800

*Touch Tone is a BT registered trade mark

Argos offers a wide range of telephones and to help you choose, we have explained the features available. All Argos phones need a plug-in type socket. If you do not have this type of socket, contact British Telecom and enquire about conversion.

Features Guide

Network Services

If you have a dual signalling (Pulse/Tone) or *Touch Tone** telephone, you may be able to use the new BT "Network Services" including call diversion, 3-way calling, reminder calls and call waiting. These additional services are available from BT for a quarterly rental charge, please contact your local BT operator for further information.

PABX

PABX compatible telephones can be used with most PBX exchange or switchboard systems. Please see the manufacturer's instructions, or use the helplines for further details.

Memories

You can store your frequently used or important numbers, and recall them at the touch of a button or two.

Last Number Re-dial

The telephone can automatically re-dial the last number you dialled, which is very useful when a number is engaged.

Mute (Secret) Button

This allows you to speak to other people in the room without being overheard by your telephone caller.

On-Hook Dialling/Hands Free Speech

"On-Hook Dialling" enables you to dial without lifting the receiver. A speaker allows you to hear when the phone is answered, then you simply pick up the handset to speak. "Hands Free Speech" allows you to speak and listen with the receiver still in place.

Ring Equivalent Number (REN)

The number of telephones you can connect to a line is determined by the REN of each telephone. The maximum total REN for a telephone line is 4.

Ringer Volume Control

This allows you to adjust the volume of the telephone ring.

Cordless Phones

Cordless phones allow you to receive or make calls around the home and even in the garden. You can page the handset (or user!) from the base unit, and some also have an **Intercom** between the base unit and the handset. Cordless phones are also available as combination units with an answering machine or speakerphone in the base.

The base unit must be connected to a mains supply as well as an approved telephone socket. The handset recharges whilst it is in the base unit. A battery back-up enables the telephone to be used during a power cut.

The quality of reception is unlikely to be as clear as with a conventional telephone as they are susceptible to interference from other cordless phones and radio transmissions, especially over long distances and obstructions (walls or doors).

Multi Channel Facility

Cordless telephones can operate over one or more frequency channels. Additional channels offer the ability to switch between channels (by pressing a button) to obtain a clear channel if required. Some models offer up to 8 channels.

Compander/Digital Noise Reduction - is now available on many newer cordless phones offering improved reception by filtering out background noise.

Your Guide to

Answering Machines

An answering machine will record messages and many include a handset for use as a normal telephone. To install your machine you need a 13 amp mains socket near to a plug-in telephone socket. A separate answering machine may also need a telephone socket doubler to connect alongside your telephone. This is indicated in the text where necessary.

Features Guide

Cassette Tapes
Most machines use a micro rather than a standard size cassette.

Digital Recording
The message is recorded on a digital voice chip. This avoids the inconvenience of shuttling tape based messages while recording or retrieving. Some models have a digital facility on out-going messages only.

Digital Voice Prompt
A digital voice will guide you through the various operations, and give you information such as the number of calls received.

Day/Time Stamp
This records the time and day of incoming messages.

Memo Facility
You can leave a message on your machine for someone else to access on their return.

Call Screening
This allows you to listen whilst the answering machine takes your call, and choose whether or not to answer personally.

Answer Only Option
Transmits a pre-recorded message without accepting a reply. This is useful if you are away for several days.

Ring Selector
The answering machine is activated after a selected number of rings allowing time to answer the call if preferred.

Two Way Conversation Recording
This allows you to record a telephone conversation, and can be useful when listening to directions or instructions.

Branch Phone Reset
Your answering machine will stop and reset automatically when you intercept a call on another extension.

Remote Access
You can check your calls even while you are out. Using a tone based telephone or a remote control device, tone retrieval activates your answering machine to play back recorded messages. Some machines can also execute other remote functions such as changing the outgoing message.

Call Count
This will display how many calls have been recorded usually on an LCD panel or by a flashing LED.

Extended Guarantees
3 and 5 year Extended Guarantees available. Refer to page 5.

ORDER IN-STORE OR BY PHONE

ITEMS 5, 6, 8, 9, 11, 12

SEE PAGE 678

All electrical items on these pages are fitted with a plug.

All sizes quoted are approximate.

REPAIR SERVICE We offer an after sales Repair Service, please see page 673 for details.

ITEMS [illegible] 7, 8, 10

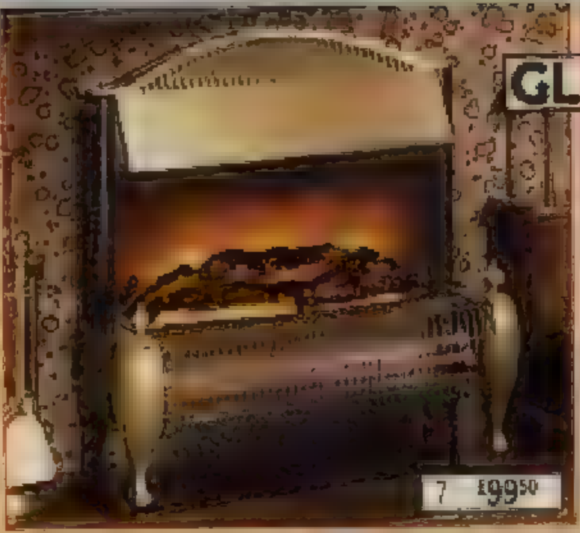
Should you have any queries regarding your fire or surround please telephone the appropriate helpline:

Glen Electric Customer Services [illegible]

J R Glendowood 01543 253516

Purchasers of Gas/Electric fire surrounds should check that the fire to be used has a compatible heat output.

BEAB The following items are approved by the British Electro-technical Approvals Board Nos 1, 3, 4, 7, 8 & 10



GAS FIRE & SURROUND

PRIOR TO PURCHASE

We recommend that this inset gas fire is used in conjunction with the "Muirfield" fire surround. If an alternative surround is used, it must have a non-combustible back panel and hearth

NB. The distance between the mantlepiece (average 6 inches thick) and the top of the fire must be in excess of 6 ins. The chimney must be of class 1 construction and we recommend that it is swept prior to installation. Gas appliances should only be connected by an approved CORGI installer (Council for Registered Gas Installers) who will undertake the gas work, final connection and safety checks.

For installation, please telephone 01703 556235 or contact your local CORGI installer

1 MUIRFIELD SURROUND. Real wood veneered mahogany inset with beige tiled hearth with an active pattern or back panel. Size [illegible] ins. **Free home delivery, see page 472.**
Cat. No. 417/0297 £329.99

Includes adjustable entry/exit times, siren duration and personal pass code. 5 zones for flexible arming and night-time convenience. External siren housing with 115 dB siren and strobe light, 2 movement detectors, 1 door/window sensor, 1 remote control and personal attack button. The remote control allows control of the system from inside and outside the property. All detectors come complete with batteries and activate the system using unique radio signals. Includes 20m cable to connect external siren, cable clips, fixings and instructions. Additional accessories to expand the system are [illegible] in pack leaflet.
Cat. No. 701/1834 £244.99

20 S SUPERSTORES ONLY
KOCOM VIDEO DOORPHONE ENTRY SYSTEM. See your caller before you let them in. Easy DIY installation. Comprises a black and white monitor with [illegible] screen, surface mounted camera, 14V power adaptor and 10m 2 core cable for simple connections and installation. Operates in very low lighting conditions with the built in auto iris lens and infra red LED. Camera can be activated to see the caller by pressing the "monitor" button, without the caller actually ringing. A lock release can be connected to the system, enabling the door to be opened by depressing the "door key" button. Complete with installation and operating instructions.
Cat. No. 701/1535 £299.99

CRIMESTOPPERS
0800 555111
Launched in 1988 and totally supported by a charitable trust, Crimestoppers provides a system for anyone to help stamp out crime in total anonymity. The 0800 555111 freephone telephone number is a national number, you don't have to give your name and cash rewards are payable.

Your Guide to Security Lighting

Argos has a wide range of security lighting for you to choose from with a variety of features. Some of the key features are explained below.

PIR - (Passive Infra Red) units automatically switch on the lights when approached. Many have adjustable sensitivity to prevent unnecessary illuminations. Most also have adjustable "time-on" features enabling you to increase or decrease the amount of time the light remains on.

Microscan 240™ - These new generation miniature detectors have a lower range than standard PIR units but are more attractive. Particularly useful on lanterns near front or rear doors.

Override - Can be either manual or automatic enabling the light to be on continuously.

Photocell - This device automatically prevents the light working during day light hours.

Switching capacity - Some floodlights have this facility which enables several lights to be connected to one PIR unit up to the maximum wattage stated.

FOR YOUR INFORMATION

Please note the thermal insulation (warmth) of a duvet is expressed by the term "tog". The higher the tog rating the warmer the duvet. The British Standard minimum tog bands are as follows: 4.5 tog, 6.0 tog, 7.5 tog, 9.0 tog, 10.5 tog, 12.0 tog and 13.5 tog. All our duvets conform to the tog bands in BS5335.

only £7.99

FOR YOUR INFORMATION

DUAL CONTROL. Some of the double under/over blankets featured have dual controls. This enables the two sides of the bed to be at different heat levels, according to personal need.

HEAT LEVELS. All our electric under/over blankets have 3 or more heat levels. The higher the number, the hotter the temperature.

ALL-NIGHT USE. Under/Over Blankets; All electric under/over blankets, B.E.A.B. approved, are suitable for all-night use, plus the normal full pre-heating facility. All our electric blankets have full overheat protection.

BEAB The following items are approved by the British Electrotechnical Approvals Board: Nos. 4-9, 11+12

We offer an after sales at-home repair service. Please refer to page 673 for details. Item No. 19

FOR YOUR INFORMATION

All electrical items on these pages are fitted with a plug

We operate a mail order service for replacement filters for Moulinex, Tefal and Delonghi Fryers. Please refer to page 676 for details.

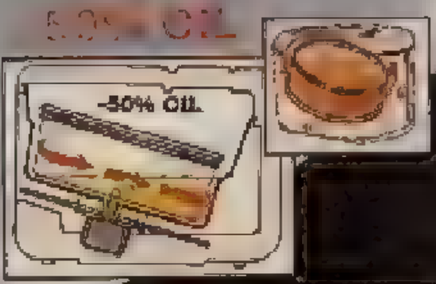
REPAIR SERVICE
We offer an after sales Repair Service, please see page 673 for details.

Rise and fall baskets enable the raising and lowering of the basket without opening the lid.

DeLonghi

"ROTOFRI" WITH DELONGHI

Here's an Extraordinari idea to save cooking oil and lighten your fried food. DeLonghi Rotofryers have a unique angled basket which rotates - it cooks by dipping the food in the oil and allows a full 2 lb load of chips to cook in just over one litre of oil. And with the cooler wall FPEC model there's another Extraordinari feature. When the oil has cooled, just drain it straight back into the bottle. So easy you'll be able to keep your fryer clean by emptying the oil every time.



ROTOFRYER FPEC
- Full capacity half the oil
- Oil drain system
- Cooler wall body
- Rise and fall basket operated from outside
- Sealed lid
- Thermostat to avoid oil overheating
- Twin filter system with "change filter code"
- Push button lid opening
- Cord storage

Cat. No. 421/4108 **£69.50**

Your Guide to

Microwave Ovens

To help you choose we have explained a little about microwave ovens and their benefits.

The Benefits of a Microwave Oven

- Microwave ovens can be used for most types of cooking, for defrosting, and for reheating pre-prepared foods.
- Cooking by microwave is up to 75% faster than a conventional oven and, as less energy is used, is more economical.
- Food cooked in a microwave oven remains nutritious and tasty since the food is cooked so quickly that it retains more of its goodness, with less loss of vitamins and minerals. Most food can also be cooked without the addition of fat.

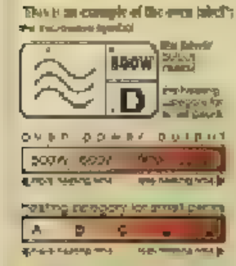
How a Microwave Oven Works

Microwaves produce heat by friction, caused by the moisture molecules in food vibrating against each other very quickly. Microwaves penetrate the food surface and the heat is then transferred to the centre of the food by means of conductivity, hence the need to allow for standing time and stirring.

Quality and Safety

All our microwave ovens conform to both British and European Standards of Safety. They are also appraised by our own Quality Control department.

Most new microwave ovens now display a label relating to the new heating instructions on small food packs (eg ready-made meals for 1 or 2 people).



This is an example of the oven label*; the microwave symbol
800W
D
OVEN POWER OUTPUT
heating category for small packs
A B C D E

By matching up the information on the food pack with that on the oven, you will be able to calculate more accurately the heating time required.

For further information please call the Independent Food Advisory Centre on 0800 282407.

*Reproduced by permission of MAFF from "A Guide to the new Microwave Labels".

Points to Remember

- Allow sufficient standing time after cooking for heat to pass to the centre of the food.
- If possible, stir or rearrange food halfway through cooking, reheating or defrosting to ensure even heating.
- Reheating of food must be carried out at a temperature higher than 70°C for at least 2 minutes.
- Food straight from a refrigerator is colder than room temperature and allowances should be made when calculating cooking times.
- All instructions for microwave cookery are to be used as a guide, foods may require slightly more or less cooking, reheating or defrosting time.
- Always follow manufacturer's instructions and any cooking instructions on the food pack.

[illegible]

All electrical items shown on these pages are fitted with a plug.

BEAB The following items are approved by the British Electrotechnical Approvals Board. Nos. 3,4,7 & 9

Size/Capacity

The interior capacity of a microwave oven is measured in cubic feet, this can be used as an indication of the amount of food which can be cooked, defrosted or reheated.

Controls

All our ovens are controlled by either a dial or, for more accurate timing - and programming, by a key pad. All have timers, automatically switching off the cooking cycle once cooking is complete.

Output Power/Wattage

The higher the wattage, the more powerful the microwave oven so the faster it will be able to cook.

Turntables

All of our microwave ovens have rotating turntables to ensure even cooking. Some have special boomerang turntables which return to the original starting position when cooking is finished - this is useful for removing handled pots from the oven. All turntables are removable for easy cleaning

Grills

Some microwave ovens have a grill, which will brown and crispen food whilst combining the speed and convenience of a microwave oven. Grills can be used simultaneously on some of our models. (See individual products for details.)

The following features are exclusive to key pad operation models only:

Sequence Cooking allows you to programme the oven to cook at different power levels for different lengths of time, in sequence, enabling you to automatically defrost, cook and keep food warm until you are ready to eat. Some microwave ovens have a **programmable memory** facility which enables you to store your most used setting for defrosting, cooking or reheating. **Delay Start** allows you to delay the start of your cooking while you are out, so that your meal is ready when you arrive home. **Auto Weight Defrost** allows you to simply key in the weight, type of frozen food and the power level, and the defrosting time will automatically be calculated for you. **Auto Weight Cook** automatically calculates the cooking time for you when you key in the weight, type of food and power level. **Auto Defrost** gradually reduces the power level in stages to ensure that food is thoroughly and evenly defrosted.

Your Guide to Combination Ovens

Combination ovens combine the versatility of a microwave, grill and convection oven all in one. You can use a combination oven as a microwave, grill or convection oven. This gives you the speed and efficiency of a microwave, with the advantages of an ordinary convection oven - which brings out the flavour, browns, and crispens your food.

Most foods can be cooked in combination mode, but these ovens are particularly good for roast meat and poultry, cakes, vegetables and baked desserts.

FOR YOUR INFORMATION

9CT GOLD WATCHES
9ct gold watches are hallmarked on the interior of their case back.

QUARTZ WATCHES
All quartz watches are dependent on batteries for their power source.

SPLASH PROOF
Watches that are designated splash proof are suitable for wearing whilst water is being splashed but not under any pressure i.e. swimming or showering.

WATER RESISTANT
Watches that are designated water resistant are suitable for wearing whilst swimming for a short period.

Please note: our suppliers adopt a policy of continuous improvement hence there may be, during the life of the catalogue, minor variations in models, specifications and colours.

All earrings are for pierced ears only. For further stud earring information please refer to page 417.

† 16 DAY EXCLUSIONS. For reasons of health and hygiene, earrings for pierced ears are excluded from the Argos 16 Day Money Back Guarantee. This does not affect your statutory rights.

We offer an after sales repair service. Please refer to page 873 for details.

FOR YOUR INFORMATION

Please note: item nos 13-24 are chronograph watches, they feature normal time and basic stop-watch timers. Please ask in-store for further details.

Watches that are designated water resistant are suitable for wearing whilst swimming for a short period.

All quartz watches are dependant on batteries for their power source.

Please note: our suppliers adopt a policy of continuous improvement, hence there may be during the life of the catalogue, minor variations in models, specifications and colours.

[illegible]

ARE YOU TAKING YOUR APPLIANCE OVERSEAS?
If so this simple guide may help. *If your appliance has automatic or universal voltage there is no need to make any adjustment. *If your appliance has a dual voltage switch you will not need to change the setting for European countries, most of which have 220-240 voltage supply systems, although an adaptor would be required (see page 43, key 30). However, in the USA or Japan, you will need to change to the 110-130 volt setting. Please take great care to switch back to the 220-240 setting on your return to the UK or other European countries.

TO GAIN MAXIMUM SHAVING PERFORMANCE
Due to the sensitivity of your skin, you should allow approximately 2-4 weeks for it to adjust to your chosen shaver.

SHAVER ADAPTORS
Several shavers are described as being chargeable from a 12-24V dc supply. This can be achieved only in conjunction with an optional adaptor, available via our mail order service.

CORDLESS SHAVING TIMES
All shaving times are approximate and are based on an average of 3 minutes shaving per day. They are also dependent upon the strength and thickness of the beard.

We operate a mail order service for replacement foils, cutters and other accessories. Please refer to page 676 for details. Credit card orders Tel: 01-52-957 4555 (24 hour service), or get an order form in-store. No stamp required.

Guide to waxing instruction book.

Cat. No. 441/1798 £39.50

FOR YOUR INFORMATION

Please note batteries are not supplied unless otherwise stated.

ARE YOU TAKING YOUR APPLIANCE OVERSEAS?
If so this simple guide may help.
- If your appliance has automatic or universal voltage there is no need to make any adjustment.
- If your appliance has a dual voltage switch you will not need to change the setting for European countries (most of which have 220-240V supply systems although an adaptor would be required (see page 43)). However if you take your appliance to the USA or Japan, you will need to change to the 110-130V setting. Please take great care to switch back to the 220-240V setting on your return to the UK or other European country.

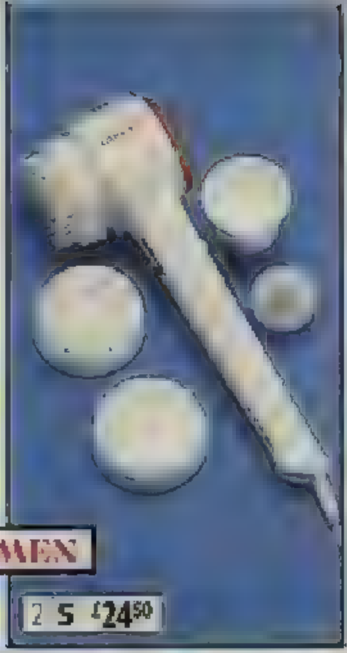
We offer an after sales repair service. Please refer to page 673 for details.

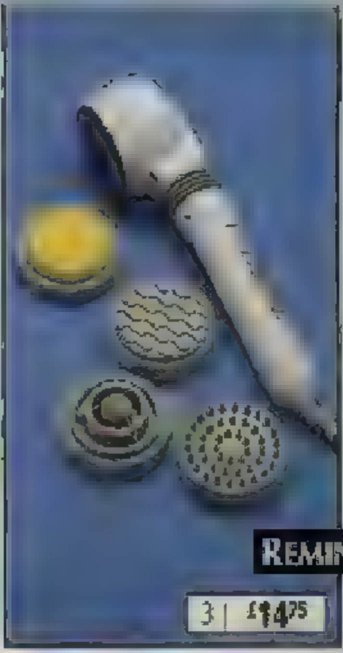
Should you have any queries regarding your appliance please call the appropriate telephone number during normal office hours, unless otherwise stated.

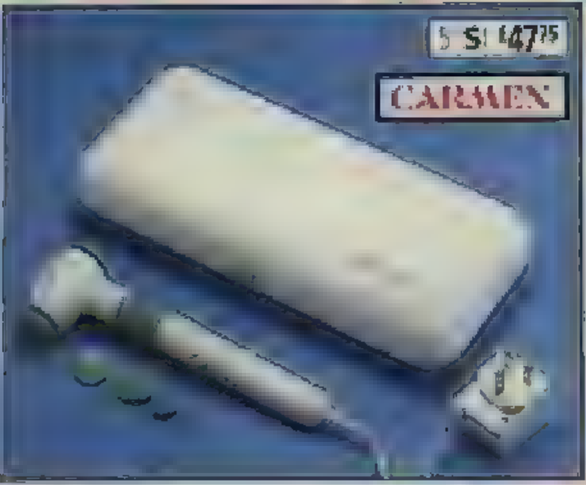
Braun. 0 933 765617
Philishave. 0181-689 2166 ext. 8054
Panasonic. 01344 853943
Remington. 0800 212438

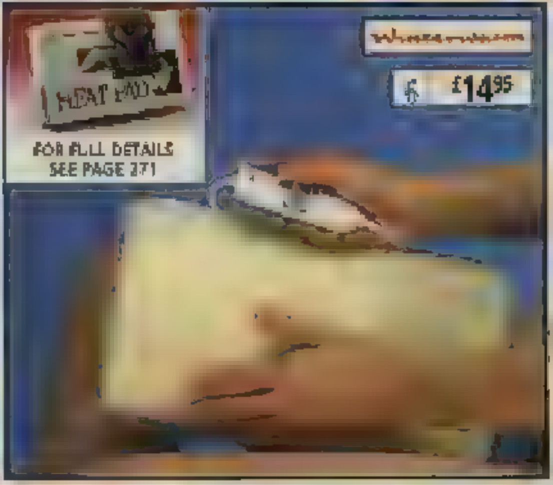
All electrical items are supplied complete with a fitted plug

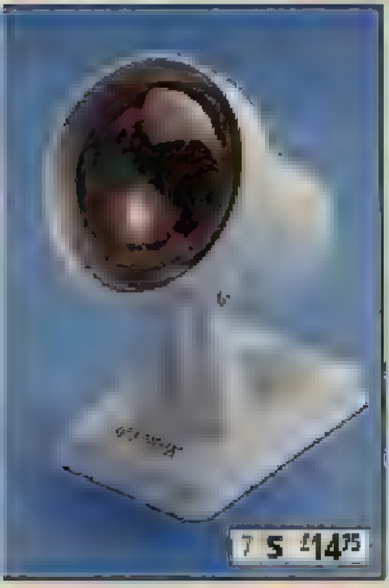
Items 17-19 are epilators, not shavers. They remove hair at the root. First time users will experience a painful sensation. This is quite normal and will be reduced with regular use. Please refer to manufacturer's instructions for full guidance and advice. Please note that these products are not recommended for people with varicose veins or diabetes.

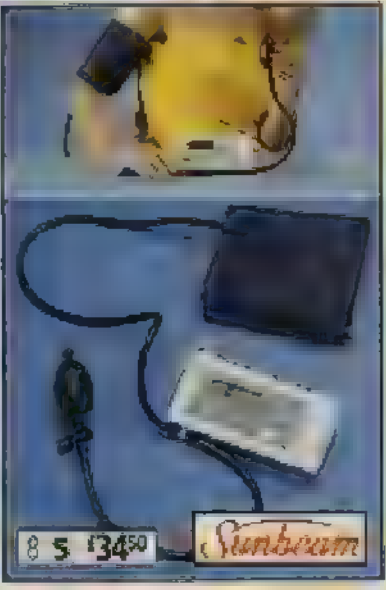


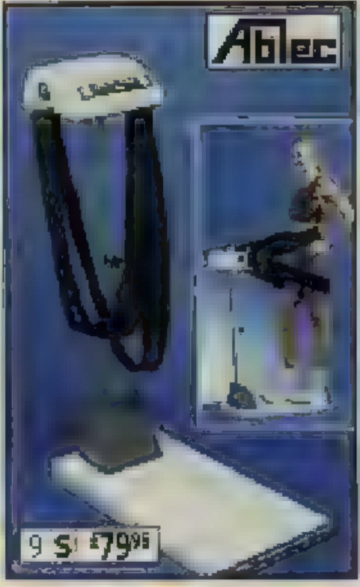












1 CARMEN DEEP HEAT MASSAGER. Heat treatment combined with vibratory massage. Variable levels of heat and massage intensity. Provides quick temporary relief to aches and pains. FOR YOUR INFORMATION

HELPLINES Should you have any queries regarding your solarium, please call the appropriate telephone number during normal office hours, unless otherwise stated.

PHILIPS 0181 699 3166

Many modern solaria come fitted with R-UVA tubes. These are similar to standard UVA tubes but have a reflective coating on the back half of the tube to project all the ultra-violet light forward, so making the tubes "Fast Tanning".

All of our solaria come with safety goggles and full instructions. It is important when using a solarium to always wear the safety goggles provided. Do not exceed the manufacturer's recommended exposure times.

5 S SUPERSTORES ONLY
CARMEN ULTRASONIC MASSAGER Developed to aid temporary pain relief, help increase mobility of stiff aching joints and muscles, and aid relaxation. Provides soothing vibratory massage which reaches deep into the muscle. The effect felt on the skin will be gentle. This is quite normal and does not minimise the effectiveness of the ultrasonic massage. Features [illegible] applicators, long handle with flexible "neck" joint for difficult to reach areas and variable intensity control dial. Can be used in conjunction with your favourite oil or moisturiser and is ideal for foot reflexology. Complete with storage case and 240V ac mains adaptor. Please note that this item is not recommended for people with varicose veins.

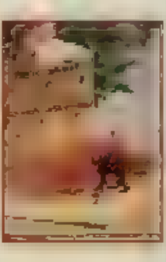
FLYING FLOWERS



Exclusive to Argos 15 multi-headed spray carnations, or 15 long stem carnations and 5 freesia. Worldwide delivery

- Fresh flowers delivered anywhere in the U.K. or Republic of Ireland direct from Jersey by first class post
- Personal message card (up to 10 words)
- Includes flower food, care instructions, gift packaging and delivery

To order, call our Flowers Hotline number on 0 534 [illegible] quoting your credit card or Argos Personal Account number and reference ARG [illegible], lines open 7 days a week, [illegible]. Or alternatively complete the coupon on page 611 and send with your cheque/postal order payable to Flying Flowers Argos Account Office, Flying Flowers, PO Box [illegible], Jersey [illegible]. Although the flowers are delivered by first class post the exact delivery date cannot be guaranteed. To allow for specific "required date" please allow 5 days from placement of order.

The closing date for Mothers Day orders is 17th March 1995. The closing date for Easter orders is 13th April 1995. Orders received by 12 noon on Mon-Fri will be despatched the same day, on request.

Please note when ordering, the two references are:

15SPY 15 Spray carnations

30FAM 15 mixed carnations/15 freesia

Flying flowers are delivered "in bud" so they last longer. Their promise states "in the event of any complaint received within 7 days of receipt, we will replace the bouquet to the same value as ordered or refund in full". This product is excluded from the Argos 16 day money back promise.

One box of

Your Guide to

Cameras

Most cameras are fitted with additional features to give greater flexibility when taking photographs. Some key features are explained below

Features Guide

Flash. A **built-in flash** works directly off the camera batteries and is usually effective for up to 15 feet. A **low light indicator** shows when to turn the flash on. An **Auto/Sensor** flash will work automatically when there is insufficient light. On some cameras, a sensor flash can be turned off for atmospheric shots, or used as "**fill-in**" flash when the subject is in the shade or against a bright background. **Red-eye reduction** utilises a light or pre-flash to contract the subject's pupils to reduce "red-eyes".

Motor Drives. **Motorised load** winds the film to the first frame ready for use automatically or by pressing the shutter button. After each shot, **motorised advance** automatically winds the film onto the next frame. At the end of the film, **motorised rewind** will rewind the film ready to take out.

Auto Focus/Focus Lock. Basic cameras have a fixed focus, which does not vary against the distance from the subject. Cameras with auto focus automatically focus on the subject in the centre of the viewfinder. "Focus Lock" allows you to hold focus on your subject even if you move it away from the centre of the viewfinder.

Auto Exposure. The aperture varies to give the correct exposure for differing light conditions. On more sophisticated cameras a **programmed shutter** automatically adjusts the shutter speed. A **backlight compensation** facility allows for bright backgrounds such as snow or sand.

Zoom Lens allows you to enlarge (or reduce) the size of the subject, effectively bringing it closer or farther away. The bigger the zoom range, the higher the degree of magnification.

Twin Lens offers the choice of either a normal or a close-up shot depending on how you wish to frame the subject.

Macro Facility allows you to take clear, focused close-up shots.

Infinity is used when taking long distance shots or for shooting through glass with an auto focus camera which may otherwise focus on the glass pane.

DX Coding. The camera will automatically adjust to the speed of film you are using.

Self Timer enables you to set the camera to take a photograph approximately 7 seconds later, so that you can be in the shot as well!

LCD Panels. On sophisticated cameras, these show the current function status, eg. selected flash, focus, mode, battery level and number of pictures taken.

Data Back allows the option of data to be printed on the corner of your photograph enabling you to remember when the picture was taken. There are two types available.

1. A manual data back will print the month and year if required.
2. A quartz data back usually offers a clock facility with LCD display and will print time/day/month/year if required.

Panoramic facility produces special "stretch" prints to create wide scenic views or artistic compositions. These cameras either utilise an adaptor which is inserted prior to loading the film, in which case the whole film must be shot in panoramic mode, or a switch mechanism which will allow for shots to be mixed on the same roll of film.

NB. Films containing mixed exposures will incur additional processing cost and we recommend that you advise the processor before having the film developed. Non-mixed exposures i.e. all panoramic exposures are also more expensive and you should ensure that the processor has the capability to print these type of photos before they are submitted for developing.

FOR YOUR INFORMATION

ISO 100 film is suitable for good lighting conditions, with bright sunshine and for indoor pictures using a flash

ISO 200 film is suitable when the lighting conditions can't be relied upon
For use in sunshine, shade or dull weather, and indoors with a flash.

ISO 400 film is a sensitive film, ideal for sunsets and action shots.

We operate a mail order service for camera & lithium batteries. Please refer to page 676 for details

Your Guide to

Camcorders

A camcorder records colour motion pictures with sound, capturing special moments and events to be played back on your own television screen. To help you choose, our guide below explains some of the technical terms and features.

Tape Formats

There are 2 camcorder formats, using different types of tape.

8mm tape is a small cassette which gives up to 90 minutes recording, or 3 hours with **long play.** Tapes are played back by plugging the camcorder directly into your TV or video recorder using the leads supplied. Recordings can be edited onto VHS tape via a video recorder.

VHS-C is a compact tape which can be played in your VHS video recorder, using the special adaptor supplied with all of our VHS-C camcorders. They give up to 45 minutes of recording, which can be extended to 90 minutes with a **long play facility.**

VHS-C tapes can also be played back by connecting the camcorder directly into a TV or video recorder via a 21 pin SCART socket. If you do not have a video recorder or 21 pin socket TV, you will need to buy an RF lead and adaptor - available from Argos Mail Order Services (telephone 0161 976 4505 or ask in-store for details).

Features Guide

Power Zoom gives a smooth zoom-in action for close-up shots. The greater the zoom range, the higher the magnification.

Full Range Auto Focus ensures that the subject stays in focus, no matter how close or far away.

Intelligent Auto Iris The auto focus works through the lens to give clearer shots and a better colour balance.

Programme Auto Exposure Modes (Director Modes) ensures the auto exposure setting is appropriate for differing environments (sports, ski twilight, parties or portrait).

Macro facility allows clear and focused close-up recordings.

Shutter Speed Variable shutter speed allows slower speeds in low light conditions, whilst a high speed shutter gives clear shots to capture rapid action.

Lux Illumination The lower the minimum lux illumination, the less light is required for clear recording.

Fader This allows you to smoothly fade in and out of different shots.

Flying Erase Head When recording over old scenes this gives a cleaner transition from old to new recordings.

Title Memory Title or dates can be superimposed onto recordings as a permanent reminder.

Edit/Camera Search Previous recordings can be viewed through the camcorder for editing or to find the correct position to resume recording.

Long Play/Record allows you to record and play back for twice the normal time, i.e. 3 hours on a 90 minute tape.

Infra-Red Remote Control allows you to fully or partially operate your camcorder at a distance.

HELPLINES
Should you have any queries regarding your camcorder, please call the appropriate helpline during office hours.

FOR YOUR INFORMATION

Binoculars are useful for a variety of hobby and leisure activities. Many binoculars featured have multi-coated lenses to improve image brightness.
Some are compact and fit easily into a pocket or handbag. Most have fold down rubber eye-cups allowing spectacle wearers to fold back the eye-cups and get closer to the eye-piece to see a clearer image.

Goodmans	01705 660529
Morphy Richards	0161 758 0338
Panasonic	01344 853843
Sharp	0161 205 2623

To help you choose, we have explained some of the technical terms.

Features Guide

Digital Tuners
Phase Lock Loop (PLL) digital tuners seek out stations by searching the whole waveband automatically for the next strongest signal.

Pre-set Buttons
You can select your favourite stations to be recorded in the memory, and then recall them at a touch of a button.

Dolby "B" and "C"+
Dolby is a noise reduction facility that reduces the hiss when tapes are played, especially on "quiet" music. Dolby "C" is the enhanced version of Dolby "B" giving even clearer sound reproduction.

Relay Play
This allows the second tape on a twin deck to automatically take over when tape one has finished.

Auto Reverse
When your tape has finished, the cassette player automatically plays the other side.

High Speed Dubbing*
On twin tape decks, this allows faster tape copying, usually at twice normal speed.

Graphic Equalisers
This allows you to "shape" the tone of the music being played by increasing or fading particular sounds. The greater the number of bands, the more precise the equaliser.

Spectrum Analyser
This provides a visual display of the sound level in the form of "dancing lights", enabling you to make fine adjustments to sound and tone levels.

Compact Disc
Compact discs provide the most accurate sound reproduction available.
On CD midi systems, a search button allows you to select which tracks you want to hear. A memory facility allows you to programme a sequence of tracks in any order.

Turntables
Belt driven decks ensure a constant rotational speed. Fully automatic decks place the stylus on the record for you, and return it after the record ends. Semi automatic decks only return the stylus, you have to place it on the record.

Speakers
Within each speaker is a series of either 2 or 3 cones (known as "2 way" and "3 way" speakers). 3 way speakers usually give a better quality of sound. Active speakers, for use with personal CD's and stereos, have their own power source to further amplify the sound.

Music Output
The higher the number of watts the greater the capacity of the amplifier and the louder the sound will be. 2 x 20 watt music power means that there are 2 speakers with a maximum music output of 20 watts per speaker.
Manufacturers generally express the potential maximum volume in one of three terms.
As a comparison:
1w RMS = 2w MPO = 4w PMPO.

+Dolby is a TRADEMARK of Dolby Laboratories Licensing Corporation.

*The recording and playback of certain material may only be possible by permission. Please refer to the Copyright Designs and Patents Acts 1988 and the Performers' Protection Acts 1958-72.

Your Guide to

Car Audio

We sell a wide range of car stereos. Many of the functions are similar to those on hi-fi equipment. Additional features include

Fader

On 4-speaker systems you can adjust the sound balance between the front and back speakers.

Auto Seek Tuning

The radio automatically seeks out the next strongest signal on a waveband.

Radio Data Systems (RDS)

RDS displays the station name and maintains your chosen station automatically when travelling through different reception areas.

Please note, there are 2 sizes of car radio cassettes. The latest, DIN E, will fit most cars built after 1985. DIN B will fit almost every car. Pre 1985 models may require an adaptor plate. Please refer to your vehicle specification manual.

Extended Other Network (EON)

EON automatically interrupts your listening with travel bulletins when they are broadcast.

Extractable Units

Some units are designed to be easily removed when you leave your car and then on return simply slot into place for play.

Detachable Front Panel/Removable Security Panel

As an anti-theft device the front fascia panel of the unit is detachable and can be carried in a pocket or handbag. When detached the unit becomes inoperable.

[illegible]

For any queries regarding car audio please call the appropriate helpline during normal office hours.

Your Guide to

Televisions

[illegible]
[illegible] have always been described by the nominal size of the glass tube across its greatest diagonal. The figures shown in brackets eg (V34cm) refer to the actual viewable picture diagonal. For FST sets, which are normally quoted in cm, we have rounded to the nearest inch for ease of comparison. Batteries are not supplied unless otherwise stated.

Should you have any queries about your TV, please call the appropriate telephone number during normal office hours

Toshiba	01276 62222

SEE PAGE 671

SEE PAGE 671

Features Guide

FST
This stands for "flatter squarer tube", which gives you improved definition, a wider viewing angle and less light reflection.

Teletext/Fastext
This gives you up-to-date information on a wide range of subjects such as travel, news, sports and television programming. Teletext also gives subtitles on selected television programmes.
Fastext is an updated system to give you quicker access to your chosen page of information. In order to ensure satisfactory text reception it is recommended that portable teletext TVs are used in conjunction with an external aerial.

NICAM
NICAM is a high quality digital audio signal which is transmitted simultaneously with television pictures, giving a similar sound quality to compact disc.
To receive the stereo NICAM signal a television or video must incorporate a NICAM receiver which picks up the signal through your existing TV aerial.
A NICAM video recording must then be replayed through a NICAM or stereo TV to maintain the stereo sound.

SCART Socket
A SCART socket, when used in conjunction with SCART leads, gives an easy connection between your television, VCR, audio system or satellite receiver dish. SCART leads can also be used to connect your Camcorder to the TV to play back recordings.

Sleep and Wake-up Timers
Particularly useful if you want to watch television in the bedroom, you can programme the timer to switch the television set to standby automatically, after you have fallen asleep. A wake-up timer acts as an alarm clock.

On-Screen Display
A visual display on the TV screen will show which channel you have turned to, or any adjustments to the volume or colour.

Argos Personal Account
Spread the cost of a new television with an Argos Personal Account. See page 2 for details.

RECEPTION DIFFICULTIES
A good television aerial, correctly positioned, will improve a snowy picture and reduce ghosting. A signal booster will amplify weak signals or supply several television sets from one aerial. A signal booster used on its own however, will not always resolve local reception problems, or cure ghosting.

We offer an after sales repair service for items 21, 23-25. Please refer to page 673.

All sizes quoted are approximate.

Cat. No. 535/7806 **£24.99**

VIDEO PLUS REMOTE CONTROLS

4 VIDEO PLUS+ Video Plus+ makes programming your video easier. Every day, next to the TV programmes in most national newspapers, "Radio Times", "TV Times", "TV Quick" and "What's on TV", you will find the Video Plus code™ numbers. You simply tap the code number of the programme you want to record into the Video Plus+ handset, press the appropriate button, to set once, daily or weekly and it will tell your video what to record. Video Plus will store up to 14 different programme selections and works with virtually all videos and satellite receivers which have an infra-red control.
Cat. No. 535/5633 **£39.00**

5 (S) SUPERSTORES ONLY
CONTROLPLUS+. A multi-function remote control which also incorporates the Video Plus+™ programming system as a built-in feature. ControlPlus+ replaces up to 5 standard remote controls and works with virtually all TVs, VCRs, satellite receivers and cable boxes. Using new technology from Gemstar, "Cabot", ControlPlus+ can be set up to work with all of your home video products in a matter of seconds.
Cat. No. 535/7480 **£49.00**

Your Guide to Video Recorders

All our VCR's allow you to record one programme whilst watching another. To help you choose, we have explained below some features of video recorders.

Programming
VCR's are programmed to record by using a remote control handset. Many have a visual LCD panel on the handset or an on-screen display showing the data is entered

Event Timer
You can programme most VCR's to record a number of events over a period of weeks.

Twin Speed
A twin speed (or "long play") facility allows the VCR to record and then play back at half the usual operating speed. The on-screen image appears as usual, but the recording time of a tape is effectively doubled. This gives 8 hours of recording on a 4 hour tape, however the quality of the recording may not be quite as good as when recorded at normal speed.

NICAM
NICAM is a high quality stereo sound signal. To receive the stereo signal, NICAM televisions and VCR's incorporate a NICAM receiver which picks up the signal through your existing TV aerial. A NICAM video recording must then be replayed through a NICAM or stereo TV to maintain the stereo sound.

Argos Personal Account
Spread the cost of a new VCR. See page 2 for details.

Batteries are not supplied unless otherwise stated

The Lion Mark is a symbol of toy safety and Argos toys are tested for compliance with exactly the same approved safety standard

We offer an after sales Repair Service please see page 673 for details.

ITEMS 1-2, 5-[illegible] [illegible] 14-16

Your Guide to

Child Safety

At Argos we sell a wide range of safety products which can help give you that extra reassurance and peace of mind.

Buying Toys

As your toddler begins to develop, there is a whole range of toys to buy. By following some key points you can make sure playtime is great fun for them as well as being safe.

- ▲ Always read the manufacturer's leaflet and retain for future reference.
- ▲ Make sure the toy is right for the child's age and ability - check the age recommendation before you buy.
- ▲ Keep older children's toys out of reach of young children and babies.

Safety in the Home

The following pages show some essential items which can help you make your home safe for your baby. We have drawn up some key points in conjunction with RoSPA, the Royal Society for the Prevention of Accidents

- ▲ Fit a safety gate at the top and bottom of the stairs and keep stairs and landings clear of toys.
- ▲ Use a baby monitor to keep in touch with your child around the home, but remember there is no substitute for supervision
- ▲ Use a fireguard securely fixed to the wall wherever you have a gas, electric or open fire.
- ▲ Make sure the side of the cot is securely fixed when your child sleeps and use a ventilated mattress.

Safety in the Car

When travelling by car there are certain points you need to remember to make sure the drive is safe as well as comfortable for your child.

- ▲ Check the child restraint is correct for the age and weight of your child and that it conforms to the appropriate British or European standard
- ▲ Always read the manufacturer's leaflet as your child's safety depends on correct installation. If in doubt, check with your local Road Safety Officer.
- ▲ Check the child restraint harnesses each time you travel to ensure your child's comfort and security.

There is a wide range of child restraints which fit most car models on the following pages. Some child restraints may require fixing kits - check with your local dealer prior to fitting.

18 HAGO EXTENDING FIREGUARD. Suitable for most types of open fires and gas/electric. 4 fixings to hearth fittings for security. Height 22 ins, depth 18 ins. Width extends from 41 to 60 ins, and up to 84 ins with extension. Extensions available direct from manufacturer. Complies with BS 6539.

FOR YOUR BABY'S SAFETY

PUSHCHAIR DO'S AND DON'TS

DON'T: Carry additional children in or on pushchair. Hang shopping from handles or carry shopping in locations other than the shopping tray provided. Leave child unattended in pushchair. Allow child to operate your pushchair or use it as a toy. Machine wash pushchair seat unless it is advised in the instruction leaflet. Force pushchair into folded position - refer to the instruction leaflet if any difficulty.

DO: Ensure pushchair is correctly erected with primary latches in place before use. Return seat to the correct position, parallel to the handle (where appropriate) before folding. Ensure child wears a safety harness correctly fitted/adjusted. Ensure that child (and any other nearby children) are clear of moving parts before making any adjustment/folding or unfolding. Take care when loading pushchair into a car boot that it is not crushed. Check regularly that all joints, fixing, straps and catches etc. are secure/in full working order.

Should you have any queries regarding your pushchair, please call the appropriate helpline number, during normal office hours unless otherwise stated.

SAFETY
Filling material(s) and covering fabric(s) meet the requirements for resistance to cigarette and match ignition in the 1988 Furniture and Furnishings (Fire) (Safety) Regulations.

(1) Forward facing 9kg to 18kg (20-40lb) approx.
(2) Rearward facing: Birth to 9kg (20lb) approx.
Rearward facing child car seats should not be used in a car fitted with an airbag on the passenger side.
For lap and diagonal seatbelt adjuster see page 41. Our child seats fit most car models.
Some require fitting kits; check with your local dealer prior to fitting. Your child's safety depends on correct installation and proper adjustment of harness - follow manufacturer's instructions carefully.

Head support cushions are available direct from the manufacturer on item nos 1, 3, 6, 7 and 8. Price £6.50 (inclusive of postage and packaging).
Order form inside car seat pack.

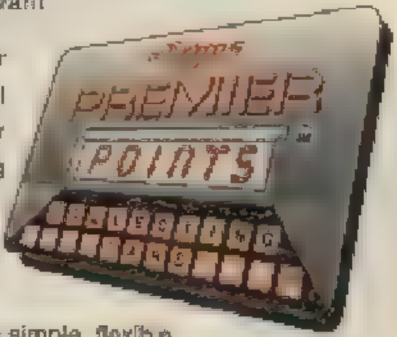
Toby Hotels – right for any Occasion
Now awarding Premier Points

All Argos customers get big savings with Mobil.

Start collecting Premier Points today at your local Mobil Service Station and start saving money on up to 7,200 quality branded items at any Argos store.

Every time you fill up with Mobil fuel, you can fill your electronic Collecting Card with more and more Premier Points. Each completed Collecting Card is worth £5 free spending money at Argos. So the more cards you collect, the more you'll save. Then simply take your cards, filled or part-filled, into any Argos store and spend them just like cash. On whatever you want



You can use Premier Points to pay in full or in part for your purchases, making up any difference with cash, cheque or credit card.

Premier Points is the simple, flexible way to save for the gifts you really want from Argos.

That's why Britain's favourite fuel-based electronic savings scheme is Premier Points.

Only at your local Mobil Service Station.

Mobil

Argos Premier Incentives provides successful incentive programmes and products to the country's most prestigious companies. From developing consumer loyalty to enhancing workforce motivation and rewarding achievement, A.P.I. helps realise the true potential of the business incentive.

The leading business incentives and motivation company in the U.K.

Our progressive outlook, comprehensive facilities and expertise are combined with an impressive portfolio of electronic, merchandise-based and paper-based programmes to offer the ideal solution to all your business incentive needs.

15 SPRAY CARNATIONS (15 SPY)

15 CARNATIONS & FREESIAS (30 FAM)

Please note that this product is excluded from the Argos 16 Day Money Back Guarantee. This does not affect your statutory rights.

COMMITTED TO QUALITY, SAFETY AND AFTER SALES CARE

We want you, our valued customer, to have total confidence in the Safety, Quality and Reliability of every product purchased from Argos.

After Sales Care Service

All Argos products are guaranteed against manufacturing defects for a minimum of 12 months. In those instances where the manufacturer's warranty extends beyond 12 months we will of course honour the terms of the manufacturer's guarantee. **Argos supports the guidelines for guarantees set by the British Retail Consortium, and we are committed to ensuring that our After Sales Care policies are offered in addition to your statutory rights (which remain unaffected).**

Quality and Safety

Our Quality Assurance Department ensures that all Argos products which are governed by strict Safety Regulations are tested to establish compliance with such regulations. In most cases the tests will be carried out by independent laboratories.

Particular attention is given to both Nursery and Toy products, and all Argos toys are tested for compliance with exactly the same safety standards as those governing the Lion Mark, which is a recognised symbol of toy safety.

All Argos toys are tested for compliance with EC Safety Regulations which is signified by the "CE" mark on all our toy products.

All the glass employed in the manufacture of our Furniture products is constructed to minimise the risk of serious accidents.

All our upholstered Furniture is manufactured to comply with Safety Regulations, which include both match and cigarette ignition tests.

All our electrical products, where appropriate, are now supplied with a pre-fitted plug. Look out for the fitted plug symbol on the relevant pages.

All our electrical products are tested for compliance with the same safety standards as those governing the BEAB mark. The BEAB Mark indicates that a product has been tested for electrical safety by an approved independent laboratory and manufactured in a factory which is inspected by the British Electrotechnical Approvals Board.

THE ARGOS PROMISE

Making sure that you are happy with your purchases both when you buy them, and after you have taken them home, is very important to us.

If you change your mind and decide that a product you have bought does not meet your exact requirements, we offer you the opportunity of returning it within 16 days of purchase, for a full refund or exchange. We simply ask that it is returned in its original and unspoilt condition, with its original wrapping and your receipt. Please note this promise does not apply to earrings for pierced ears, food products, camcorders, pre-recored music or videos, computer software or fresh flowers. This guarantee does not affect your statutory rights.

After Sales Care

If a product develops a fault within 30 days of purchase, simply return it (with your proof of purchase) and we will offer you an exchange or a full refund.

Repair Services

If a product develops a manufacturing fault after 30 days of purchase and within a year from the date of purchase, we will have the item repaired **Free of Charge.**

In those instances where the manufacturer's warranty extends beyond 12 months, we will of course honour the terms of the manufacturer's guarantee.

Most repairs are normally carried out within 16 days.

Look out for the symbols in the catalogue indicating the service available.

For your convenience, many electrical appliances can be serviced in your home.

Most office electrical equipment can be serviced on site.

For in-home or on-site repairs, please contact your local store for details.

Other items should be returned to the store for repair, along with your proof of purchase, plus all the accessories originally supplied with the product.

OVER 345
STORES NATIONWIDE

Our traditional stores offer over 4,000 top quality products for you to choose from.

DELIVERY SERVICES

Free Home Delivery Service

- Anywhere in Great Britain and Northern Ireland (but excluding The Channel Islands, Isle of Man, Orkney, Shetland and the Western Islands).
- Delivery normally within 14 days.
- Order in-store or by telephoning the FREE HOME DELIVERY NUMBER (see below*). We operate the Free Delivery Service on items which are too large or heavy to stock in our stores, delivering them free of charge direct to your home. These items are marked by the red lorry symbol and are not available for collection from any of our stores.

Free 3 Day Home Delivery Service

We are able to deliver certain items (only those marked by the 3 day red lorry symbol) on a fast delivery service, three working days from the date of order (except in the excluded areas listed above).

Free Delivery and Installation on Selected Computers

Our Free Home Delivery on selected computers also includes unpacking and setting up in the home. See page 191 for more details.

(We regret that this offer is not available in the Channel Islands, Isle of Man, Orkney, Shetland or the Western Islands.)

How to Order

You can order any of the items covered by Free Home Delivery at the Customer Services area in our stores, or you can order by telephoning the FREE HOME DELIVERY NUMBER (see below*) anytime between 8.00am and 10pm, 7 days a week giving your order and credit card details. Once you place an order, we will contact you to arrange delivery. Delivery will normally be within 14 days, unless otherwise indicated in the item description or at the time of ordering.

FREE HOME DELIVERY
Orders and enquiries only

(Calls charged at local rate)

OTHER ENQUIRIES
(excluding Home Delivery)

STORES (local queries)	See pages 674-675
HEAD OFFICE (general queries)	01908 600161

Superstore Delivery Service

- Deliveries anywhere within 20 miles of any Argos Superstore.
- One small delivery charge covers as many catalogue items as you wish to order (excluding those delivered free by Argos Free Home Delivery Service).
- Order by telephone or in-store.

Free Delivery and Installation on Selected TVs*

As an extension to our Superstore Delivery Service, we also offer FREE DELIVERY AND INSTALLATION on all large screen televisions *(20 inch and over) and VCRs from any Argos Superstore.

Installation is to an existing electrical socket and adjacent aerial point. This offer applies within a 20 mile radius of any Superstore (mainland only). See page 570 for more details.

How to Order You can order by telephoning the Superstore during normal working hours, just giving your order and credit card details. Or you can arrange delivery when you order in-store (see page 675 for your nearest Argos Superstore and telephone number).

Argos Distributors Ltd, 489-499 Avebury Boulevard,
Central Milton Keynes, MK9 2NW (Credit Brokers)

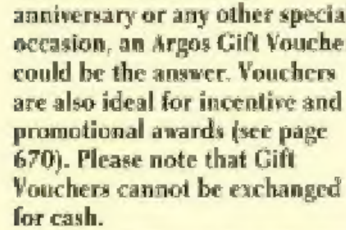
Save £££'s at Argos with Premier Points

Many Argos customers are already collecting Premier Points and using them to save £££'s at Argos.

- **You can collect Premier Points when you buy petrol or diesel fuel from Mobil Service Stations, and when you stay at any Toby Hotel.**
- **Points can be redeemed at any Argos store. A full card is worth £5 but there is no need to wait, you can redeem any value of points at any time.**
- **Simply present your Collecting Card(s) to the cashier when making a purchase of one or more items from the Argos catalogue*. You can add to your Points value with any other method of payment accepted at Argos stores.**

For full terms and conditions ask in any Argos store, participating Mobil Service Station, or Toby Hotel and start saving today. *Excludes any telephone or mail order services.

Argos Gift Vouchers



If you want to take care of a birthday, anniversary or any other special occasion, an Argos Gift Voucher could be the answer. Vouchers are also ideal for incentive and promotional awards (see page 670). Please note that Gift Vouchers cannot be exchanged for cash.

£1 Cat. No. 888/0105 £10 Cat. No. 888/1001
£5 Cat. No. 888/0507 £20 Cat. No. 888/2000

This catalogue is valid until the launch of our Autumn/Winter 1995 catalogue and supersedes all previous catalogues.
